Dear [redacted],

Since George Washington Carver discovered the peanut and it was his birthday we watched a show on p.b. slices. I learned that Kennedy Foods has great ideas for problems.

This product is very useful because you don't have to worry about sticky knives and ripping bread and it is easy to use. Customers should buy this product because it does not cost much and quick to use.

Thank you for sending p.b. slices. I really enjoyed eating them.

Y
